

Prior Sale Information

Plymouth Energy is providing you with the following prior sale information for your consideration. Plymouth Energy does not, however, endorse or recommend any sale and is not responsible for the fairness of the purchase price, the payment terms or any other terms of any transaction. Plymouth Energy therefore does not endorse or recommend any sales at any of the prices listed below or on the same or similar terms. You must consult with your own personal legal, tax, investment and other advisors regarding any sale or purchase of any units.

Plymouth Energy intends to update the prior sale information on a monthly basis, and generally within 15 business days of the close of each calendar month. Plymouth Energy shall not, however, have any liability for any failure or delay in posting any prior sale information, for whatever reason, or for the accuracy or completeness of any prior sale information. Plymouth Energy also reserves the right to discontinue providing any prior sale information at any time, without notice, and for whatever reason.

Any prior sale information provided below may include sale information arising from transactions effected pursuant to this matching service or any other sales which may have otherwise been approved by the managers of Plymouth Energy. Any prior sale information provided below might not, however, reflect all transactions effected pursuant to this matching service or which have otherwise been approved by the managers, including, for example, transactions where no sales price or other consideration was paid, such as a pledge, gift or estate transaction. Plymouth Energy may also elect to exclude information regarding transactions in which the consideration paid for the units was in a form other than cash.

There have been no transactions completed through the Unit Matching Service as of 10/1/2010.
